OBJECTIVE

To acquire a leadership role in which I may dedicate a diverse array of skills and unique qualifications to assist my in employer meeting and exceeding all goals and objectives.

LEADERSHIP

- Led construction and service projects to complete on time and within budget
- Led surveying, clearings, cuttings, and fillings to specs for a future US Embassy housing site in Afghanistan
- Directed USACE Operations in Salah Din Province
- Directed construction on F.O.B. Danger (Where U.S. forces officially handed over Forward Operating Base Danger to the Iraqi government)

OVERSIGHT

- Oversee and monitor invoicing cycles
- Monitor federal, state, and company safety regulations and standards
- Review and interpret documents, tenders, plans, and contract specifications
- Inspect project tasks, verify specifications, drawings, and QA plan compliances, prepare and submit QA, site, daily and weekly field and progress reports
- Oversight and monitoring of project progress to successful completion
- Review construction plans for practicability, availability of materials, and suitability of specifications
- Monitor safety guidelines (OSHA, HAZMAT, etc.) in accordance with state, federal, and company standards

COMMUNICATION/COLLABORATION

- Collaborate clearly with contractors, officers, architects, engineers, and management
- Effectively communicate recommendations and compensation documentation for sub-contractors
- Consult and participate in preconstruction and progress meetings
- Established and maintain proper rapport and working relationship with US Embassy personnel and State Dept officials
- Team up with contracted Iraqi Construction Firms on major civil infrastructure projects; roads, bridges, schools, hospitals, water/sewage and electrical services

TECHNICAL ABILITIES

- Expert application of MS Project/Excel and Primavera P3
- Provide AQ and accountability for on-site workmanship and materials
- Redesign and implement QA/QC and safety programs
- Design and implement in-field test verifications for field survey sign off, compaction, slump, and concrete test cylinders referencing code manuals for all skilled trade areas

AWARDS, COMMENDATIONS, AND NOTABLE ACCOMPLISHMENTS

- Managed military and civilian construction projects in excess of \$70 million dollars. (US Army Corp of Engineers)
- Contracted over \$12 million dollars in emergency repairs on US Government Installations and Bases. (DHS)
- Completed projects valued over \$14.5 million dollars involving a myriad of construction fields including HVAC, electrical, fire detection, major coastal harbor and water front projects; finishes and site work in both new construction and renovations throughout North Carolina and Virginia. (DHS)
- Completed \$19 million dollar project on-time and within budget. (Lansdowne City School District)
- Saved school district \$131,000 by installing a two-mast lightning protection (Lansdowne)
- Brought \$3.8 million dollar hotel project in on-time and within budgetary limits. (TriVest Construction Co.)
- Created and implemented a computerized design program to color-code footprint areas for the initial excavation and tracked daily task completions leading to an additional \$326,000 savings on unnecessary file materials
- Certificate of Commendation – Meritorious Service to the Bagdad Police College - Iraq Ministry of the Interior
